DIRECTORS' STATEMENT—1946

At present there are four schools in Shrewsbury. The East Shrewsbury school was reopened last September with Mrs. Hilda Wood as teacher.

We are fortunate in having two teachers who have taught in the same schools for many years—Mrs. Lloyd Stapleton at Cuttingsville, and Mrs. George Lawrence at North Shrewsbury.

At the Center school, Mrs. William Adams kindly consented to substitute during the Fall term. Mrs. Florence Pierce, a teacher of much experience, has been engaged for the remainder of the year.

Each of the four schools has electricity and also each has been partially insulated the past year.

Some painting should be done and some repairs made the coming summer.

Transportation is furnished every pupil who lives a distance from the school.

There have been very few complaints from parents or pupils the past year, for which we are duly thankful.

Schools are always better when parents and pupils cooperate with the teachers and School directors.

We wish to thank Supt. Bullis for the help he has given to the teachers and directors.

FLORISE JOHNSON,
HERBERT S. MARTYN,
School Directors.

REPORT OF SUPERINTENDENT

To the Board of School Directors—

I am pleased to report on the work of the schools of the town at this time. The pupil progress in the schools has been such that I can heartily recommend the work of the teachers. The increase in the cost of operating the schools will be noted and I cannot state that the costs will be less another year. In fact, it is a well established fact at this early date that school expenditures for the current year will be greater.

Some of the increased costs should be explained. Teachers salaries are more and operating four schools in the town will increase that item for 1947. 1945 included a teacher for Eastham for five months and the 1946 report included a teacher there for four months. Transportation costs have increased due to the increased enrollment in the Cold River area. High School tuition costs have increased 25% and will be increased more as the rate required of towns will no doubt be raised by the present legislature. Supplies and text books have shown a great increase but supplies are on hand for the entirety of the current year and a complete change in the basal reading system was charged up to 1946.

The total increase amounts to 33% but this includes insulation jobs in the four buildings which will not occur again and which will, in the coming year, reduce the fuel bill and has and will increase the comfort of the buildings. The buildings are easier to heat and will be cooler in the warmer months. I heartily commend you as directors for proceeding with this project and the results will be used by other towns as time proves the value of insulating rural school buildings.

I have warned that the school costs will be increased this year. There will be an appreciable increase in salaries for teachers this fall and other costs will not be reduced in the major items. With the population of the country shifting back to the rural areas, enrollment increases may necessitate the reopening of a fifth school.

School income will also be increased other than from the local tax. I firmly believe that the legislature will raise the minimum salary for teachers to a higher level but it will also raise the state aid to meet this increased cost. Rural teachers will gain their rightful position in the salary scale as a bonus is requested for every teacher that spends a year teaching in a rural school. The job is difficult and the social limitations are many during the winter months. Rural communities can gain favorable reputations by making special efforts to see that the teacher has an occasional chance to get to the movies, ball games and dress shops where there is no bus or train service available.

Though the high school tuition bill is increased it indicates that more graduates are attending secondary schools. The tuition rate for such facilities may be increased an appreciable amount this year as increased costs of operation averages \$54. per pupil more than the present rate of tuition. The rate is now \$75, the proposed rate \$125.

I heartily commend you for your services as school directors and for the keen interest you have shown in the progress of the children. I sincerely hope that all in your town fully appreciate the work of those that have served as regular teachers and substitutes during the past year.

Respectfully submitted,
JEROME Q. BULLIS,
Superintendent of Schools.

REPORT OF THE PUBLIC HEALTH NURSE

Following is the report of services rendered during the month of January, 1946 to February 1, and from June 10 to January 1, 1947.

To Maternity cases—

Twenty-one visits were made to expectant mothers and to new mothers to advise about care of themselves and their babies and to give nursing care as needed.

Assisted at two deliveries by the physician in the home.

To infants and preschool children—

Forty-one visits were made to the homes to discuss with the parents the health needs of their children.

Five infant and preschool children were given a medical examination by a local physician.

One child was protected against small-pox by vaccination.

One child was protected against diphtheria by toxoid.

To schools—

Fourteen visits were made to the schools to give personal hygiene inspections, to assist teachers with vision and hearing testing, health teaching, and to consult with them regarding health problems and to assist in the control of communicable diseases.

Respectfully submitted,
RUBY N. WEST,
Public Health Nurse

VERMONT OLD AGE ASSISTANCE DEPARTMENT

120 STATE STREET

Montpelier, Vermont

Payments of Old Age Assistance to persons applying from your town amounted to \$2,342.50 during the year January 1, 1946 to December 31, 1946.

Payments for funeral expenses \$200.00.

The number of recipients in December, 1946 was 6. Monthly payment \$211.50.

The maximum payment which can be made by this department is \$40.00 per month. In October 1946 we were able to make payments above \$30.00 for the first time. This was due to an appropriation of \$50,000 by the special session of the legislature and a temporary change in the basis of federal matching. Congress authorized the Social Security Administration until December 31, 1947 to reimburse the States \$10.00 for the first \$15.00 paid. For the balance of the payment the old fifty-fifty matching basis is still in effect.

Many increases were made to meet cost of living budgets. Grants are practically up to date on current investigated applications. Intake has increased and is now on a prewar basis of about 100 applications per month.

Average Grant, December, 1945—\$23.38

Average Grant, December, 1946— 29.14

This department has always received a high degree of cooperation from local officials and interested individuals. On behalf of the agency I extend thanks.

Very sincerely yours,

W. L. SEWARD, Director.
